A Classical Education for the Modern World

Local Wellness Policy 2022-23

INTRODUCTION

In con junction with the Office of the State Superintendent of Education (OSSE), Washington Latin is publishing this Local Wellness Policy (LWP) in compliance with all necessary elements stipulated in local and federal law. OSSE's approach to wellness is outlined below.

WHOLE SCHOOL, WHOLE COMMUNITY, WHOLE CHILD MODEL

This graphic offers an outline for an LEA's approach to ensuring environments and opportunities exist for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing distractions. This LWP is structured to align with the 10 components of the Whole School, Whole Community, Whole Child (WSCC) model. The WSCC model promotes a holistic approach to school health and integrates health services and programs into the day-to-day school and student life as a tool for improving academic achievement and learning. The WSCC model is the Centers for Disease Control and Prevention's (CDC) framework for addressing health in schools. The WSCC model is student-centered and emphasizes the role of the community in supporting the school, the connections between health and academic achievement, and the importance of evidence-based school policies and practices.

The 10 WSCC components are:

- Health Education
- 2. Physical Education and Physical Activity
- 3. Nutrition Environment and Services
- 4. Physical Environment
- 5. Social and Emotional Climate
- 6. Counseling, Psychological & Social Services
- 7. Health Services
- 8. Employee Wellness
- 9. Family Engagement
- 10. Community Involvement

LEAs must ensure all mandatory local and federal LWP components are included in their final policy, and may divide their policy into 10 components in alignment with the WSCC model. All elements, when combined together, support a high-quality, well-rounded LWP aligned to the CDC WSCC model. In order to meet the mandatory requirements of an LWP, LEAs should ensure the policy covers the following:

- students in the school have access to healthy foods throughout the school day both through reimbursable school meals and other foods available throughout the school campus/day in accordance with federal and state nutrition standards;
- students receive quality nutrition education that helps them develop lifelong healthy eating behaviors:
- students have opportunities to be physically active before, during and after school;
- schools engage in nutrition and physical activity promotion and other activities that promote student wellness;
- school staff are encouraged and supported to practice healthy nutrition and physical activity behaviors in and out of school;
- the community is engaged in supporting the work of the LEA in creating continuity between school and other settings for students and staff to practice lifelong healthy habits; and
- the LEA establishes and maintains an infrastructure for management, oversight, implementation, evaluation, and communication about the policy and its established goals and objectives.

For questions about this policy, please contact Martita Fleming (mfleming@latinpcs.org; 202-223-1111 x114). For support in understanding LWP requirements, please contact OSSE at OSSE.schoolhealth@dc.gov.

HEALTH EDUCATION
Health education is comprised of several aspects of wellbeing, including mental health, physical fitness, sexual health and safety.¹ High-quality health education and promotion of school-based health activities can help improve students' quality of life, increase healthy behaviors, and reduce risky behaviors throughout students' lives.²
recognizes the connection between good health, quality of life, and readiness to learn is committed to providing high-quality health education and promoting health policies and activities that result in students that exhibit healthier behaviors.
Healthy Schools Act Requirement (DC Official Code § 38–821.01(1F)); (DC Official Code § 38–824.02(b)) Students in kindergarten through Grade 8 receive health education instruction aligned with OSSE Health Education Standards.
Healthy Schools Act Requirement (DC Official Code § 38–824.02(b)(2)) Schools serving students in kindergarten through Grade 8 provide an average of 75 minutes of health education per week.
School Safety Omnibus Amendment Act Requirement (DC Official Code § 38–824.02(b-2)(1)(A)) Students in kindergarten through Grade 12 receive age- and developmentally appropriate, evidence-based, and culturally responsive instruction on recognizing and reporting sexual misconduct and child abuse, setting and respecting appropriate personal and body boundaries and privacy rules, communicating with adults about concerns regarding body boundaries or privacy violations, the meaning of consent, developing and maintaining healthy relationships, and other appropriate topics to support healthy development of students.

Graduation Requirement (5-A DCMR § 2203.3(b))
Provide the necessary 1.5 Carnegie units in health/physical education to meet graduation requirement.
PHYSICAL EDUCATION AND PHYSICAL ACTIVITY
School-based physical education and physical activity programs offer the best opportunity for students to learn the key skills and
gain knowledge needed to establish and sustain a healthy and active lifestyle. ³ High-quality physical education improves a student's
readiness to learn by contributing to motor skill development, boosting self-esteem, reducing stress and anxiety, and improving
breathing and blood circulation which result in better concentration, improved behavior, and stronger academic success.4
] recognizes the connection between a physically active life and a child's positive

physical, mental, and emotional development understands the importance of
engaging its students in opportunities and activities that are empowering, regardless of ability, developmental status, or culture.
is committed to providing students with high-quality instruction to reinforce
physically active behavior during school and throughout life.
Federal and Local LWP Requirement (7 CFR 210.31(c)(1)); (DC Official Code § 38–826.01(b)(C))
LEAs must identify specific goals for increasing physical activity and other school-based activities that promote student wellness
through physical activity. In developing these goals, LEAs must review and consider evidence-based strategies and techniques.

Healthy Schools Act Requirement (DC Official Code § 38–821.01(6C); (DC Official Code § 38–824.02(a))
Students in kindergarten through Grade 8 receive physical education instruction aligned with OSSE Physical Education Standards.
Healthy Schools Act Requirement (DC Official Code § 38–824.02(a)(1)(A)); (DC Official Code § 38–824.02(a)(2)(A))Schools serving
students in kindergarten through Grade 5 shall set a goal to provide an average of 150 minutes of physical education per week,
and at least one recess of at least 20 minutes per day. If a school serving students in kindergarten through Grade 5 provides less than an average of 90 minutes of physical education per week, it shall submit an action plan to OSSE detailing efforts it will take to
increase physical education before beginning the next school year.
Healthy Schools Act Requirement (DC Official Code § 38–824.02(a)(1)(A)); (DC Official Code § 38–824.02(a)(2)(A))
Schools serving students in grades 6-8 shall set a goal to provide an average of 225 minutes of physical education per week, and at least one recess of at least 20 minutes per day. If a school serving students in grades 6-8 provides less than an average of 135
minutes of physical education per week, it shall submit an action plan to OSSE detailing efforts it will take to increase physical
education before beginning the next school year.
Healthy Schools Act Requirement (DC Official Code § 38–821.01(6C))
At least 50 percent of physical education instruction time is devoted to moderate-to-vigorous physical activity.

Healthy Schools Act Requirement (DC Official Code § 38-824.03(a)) Provide suitably adapted physical education or supplementary aids for any other student with special needs that preclude the student from participating in regular physical education instruction.
Healthy Schools Act Requirement (DC Official Code § 38-824.03(b)) Prohibit requiring or withholding physical activity as a means to punish students, provided that students who are not wearing appropriate athletic clothing may be prohibited from participating in physical activity until properly dressed.
Healthy Schools Act Requirement (DC Official Code § 38–824.02(a-1)(1)) Provide students in grades pre-K 3 and pre-K 4 with an average of 60 minutes of daily physical activity, including two 20-minute outdoor recess periods each day weather and space permitting.
Healthy Schools Act Requirement (DC Official Code § 38–824.01(a-c)) It shall be the goal to engage students in physical activity for at least 60 minutes each day. Schools shall promote this goal. Schools
shall seek to maximize physical activity by means including: extending the school day, encouraging students to walk or bike to school; promoting active recess; supporting athletic programs; integrating movement into classroom instruction and classroom instruction breaks; entering into shared-use agreements with organizations that provide physical activity programming for children outside of the normal day; and using physical activity as a reward for student achievement and good behavior.
school; promoting active recess; supporting athletic programs; integrating movement into classroom instruction and classroom instruction breaks; entering into shared-use agreements with organizations that provide physical activity programming for children

NUTRITION ENVIRONMENT AND SERVICES
Offering nutrition education and serving healthy school meals help mitigate childhood obesity, model healthy habits, and promote life-long healthy eating patterns and food selection recognizes that serving healthy meals to students through the National School Lunch Program, School Breakfast Program, After School Snack Program, Fresh Fruit and Vegetable Program, Special Milk Program, The Child and Adult Care Food Program, Summer Food Service Program, and other supplemental nutrition programs contribute to the improved nutritional diet and health of students, reduces hunger among students, and improves students' readiness to learn.
NUTRITION PROMOTION AND EDUCATION
is committed to promoting positive nutrition behaviors and habits. Posters promoting <u>healthy portions</u> , age appropriate <u>nutrition information</u> for healthier living, and food service menus will be posted in public areas throughout our school(s).
Federal LWP Requirement (7 CFR 210.31(c)) LEAs must identify specific goals for nutrition promotion and education and other school-based activities that promote student wellness through nutrition. In developing these goals, LEAs must review and consider evidence-based strategies and techniques.
Healthy Schools Act Requirement (DC Official Code § 38-822.05(b)(1)) Distribute the menu for each breakfast and lunch served, nutritional content of each menu item, ingredients of each menu item, and the location where fruits and vegetables served in schools are grown and processed. Make information available on school website, in school's office, and to parents and legal guardians upon request.
Healthy Schools Act Requirement (DC Official Code § 38-822.01(a)(1)(B)(i-ii)) Make a vegetarian food option available as a daily option for the main course for breakfast and lunch at all grade levels. Vegetarian food options shall be rotated to avoid repetition.

Healthy Schools Act Requirement (DC Official Code § 38-822.01(a)(1)(B)(iii))
Vegetarian food options shall be clearly labeled or identified.
Healthy Schools Act Requirement (DC Official Code § 38-822.03(b)(3)) Solicit input from students, faculty, and parents, through taste tests, comment boxes, surveys, a student nutrition advisory council,
or other means, regarding nutritious meals that appeal to students.
Federal Requirement (7 CFR 210.10(a)(2)) Hang Offer vs. Serve posters as a guide for students choosing a reimbursable meal. ⁵
FOODS AND BEVERAGES MARKETED TO STUDENTS
All food and beverage products marketed on school grounds must, at a minimum, meet the USDA's school meal nutrition and Smart
<u>Snacks</u> standards. Product marketing refers to any written, oral posted graphics intended to promote the sale of a food or beverage
product.
is committed to marketing food and beverages in nutrition-promot-
ing ways including ensuring that filtered water is available for student and staff consumption throughout the day and that water is
marketed in health promoting ways that do not detract from milk promotion. This commitment will be demonstrated by taking the
specific actions outlined below.
Federal and Local LWP Requirement (7 CFR 210.31(c)(3)(iii)); (DC Official Code § 38-822.06(f)(2))
Establish policies for food and beverage marketing that allow marketing and advertising of only those foods and beverages that
meet or exceed the federal nutritional and Healthy Schools Act standards.

 $^{5 \ \ \ \ \, \}text{See Offer Versus Serve Posters for Lunch at} \, \underline{\text{www.fns.usda.gov/tn/offer-versus-serve-national-school-lunch-program-posters}} \\$

FOODS AND BEVERAGES PROVIDED TO STUDENTS
Federal LWP Requirement (7 CFR 210.31(c)(2)) Establish standards for all foods and beverages provided, but not sold, to students during the school day (e.g., in classroom parties classroom snacks brought by parents, or other foods given as incentives).
Federal and Local LWP Requirement DC Official Code § 38-822.03(c); (7 CFR 210.18(h)(2)(v)) Make cold, filtered water available free to students, through water fountains or other means, when meals are served to students.
FOODS AND BEVERAGES SOLD TO STUDENTS
Federal LWP Requirement (7 CFR 210.31(c)(3)(i-ii)) Establish standards and nutrition guidelines for all foods and beverages sold to students on the school campus during the school day that are consistent with federal regulations for school meal nutrition standards and the Smart Snack in School nutrition standards.
Healthy Schools Act Requirement (DC Official Code § 38-822.06(e)) Schools shall prohibit all third-parties, other than school-related organizations and school meal service providers, from selling food or beverages of any type to students on school property from 90 minutes before the school day begins to 90 minutes after the
school day ends.

SCHOOL MEALS
is committed to serving healthy meals through the National School
Lunch Program, School Breakfast Program and other supplemental programs to children, with plenty of fruits, vegetables, whole grains, lean protein and fat-free or low-fat dairy, that are moderate in sodium, low in saturated fat, have zero grams of trans-fat per serving (nutrition label or manufacturer's specification), and to meet the local and federal nutrition requirements and the needs of school children within their calorie requirements.
Local LWP Requirement (DC Official Code § 38-826-01(b)(2)(B))
Establish plans for increasing the use of locally grown, locally processed, and unprocessed foods from growers engaged in sustainable agriculture practices.
Healthy Schools Act Requirement (DC Official Code § 38-823.01)
Track procurement using the Locally Grown Food Item Tracking Log. ⁶
Healthy Schools Act Requirement (DC Official Code § 38-822.02(a))
Serve school meals that meet or exceed the federal nutritional and HSA standards.

⁶ Office of the State Superintendent of Education. (2019). Locally Grown and Unprocessed Food Item Tracking Log. Retrieved from https://osse.dc.gov/publication/locally-grown-and-unprocessed-food-item-tracking-log

PHYSICAL ENVIRONMENT
According to the CDC, physical environment is defined as the school building and its contents, the land on which the building is located, and the area surrounding it. ⁷ The physical learning environment has a great impact on student learning and promotes and improves learning by ensuring the health and safety of students and staff.
_ recognizes the connection between physical environment and student outcomes and believes safe, positive, respectful learning
environments will result in more engaged students. Additionally, understands that
environmental sustainability means meeting present needs without compromising the ability of future generations to meet their
own needs. ⁸
is committed to implementing and maintaining standards to ensure a healthy
school physical environment and creating environmental sustainability practices for staff and students and recognizes its importance for both today and for years to come.
Local LWP Requirement (DC Official Code § 38–826.01(b)(2)(A)) Establish goals for improving the environmental sustainability of schools.
Local LWP Requirement (DC Official Code § 38–826.01(b)(2)(D))
Establish goals for developing and implementing an Environmental Literacy Program.

SOCIAL AND	EMOTIONAL	CLIMATE

According to the CDC, social and emotional climate refers to aspects of students' educational experience that influence their social and emotional development. The quality and character of school life is often referred to as school climate. The school's climate and students' social and emotional needs play major roles in the development of students.
recognizes the connection between students' social and emotional needs and their ability to learn and perform both within and outside of the classroom setting understands that a positive school climate is one in which the quality and character of school life is formed through: a student-centered environment rooted in community values and
input, systems of culture, gender, and LGBTQ responsive engagement, and proactive safety measures that prioritize the health and wellness of all members of the school community, including staff and families.
is committed to developing socially and emotionally healthy students by creating and maintaining a school climate that results in a safe, engaging, healthy, challenging, and supportive learning environment. understands the design, education and implementation of social and emotional
learning priorities is essential to demonstrating this commitment.
Healthy Schools Act Requirement (DC Official Code § 38-826.06) Schools covered by the Youth Risk Behavior Surveillance System (YRBSS), serving grades 6-12, shall participate in the biennial DC data collection.
Recommendation
Survey students to measure broad perceptions of student access to quality mental health supports. 12
Recommendation Provide a designated physical safe space for LGBTQ students. ¹³

Recommendation Provide a designated space for the delivery of behavioral and mental health services.
Recommendation Establish a policy and procedures for suicide prevention and intervention, including a defined school crisis team and safe space for behavioral and mental health service delivery. 16
Recommendation: Encourage and support behavioral health staff to participate in the School Behavioral Health Community of Practice and to engage in ongoing support and learning with peers.

¹⁶ This acknowledgement coincides with a requirement mentioned in the Social and Emotional Climate section of this template.

		/ICES

Health services provide preventive and actual care for a host of medical conditions and concerns within the scope of practice of school nurses, nurse practitioners, dentists, health educators, physicians, physician assistants, and allied health personnel. These services include but are not limited to first aid, cardiopulmonary resuscitation (CPR) and automatic external defibrillator (AED) use, anaphylaxis treatment and management, and planning and management of chronic diseases such as asthma and diabetes. These services ideally combine school and community resources to meet the needs of the students, staff and community through proper care coordination.
Student Health Care Act Requirement (DC Official Code § 38-602(a)-(b)) Collect annual Universal Health Certificates and Oral Health Assessments from each student.
Access to Emergency Epinephrine in Schools Amendment Act (DC Official Code § 38-651.04a(b)(3)); (DC Official Code § 38-651.04a(c)(2)(B)) Schools shall stock and maintain two undesignated epinephrine auto-injector twin-packs in a secure but easily accessible location and ensure at least two OSSE-certified staff members are trained annually and present during all hours of the school day.
Immunization of School Students Act (DC Official Code § 38-501); (DCMR § 5-E5300) Ensure all schools implement the Immunization Attendance Policy and verify student compliance with District immunization requirements for enrollment and attendance.
Recommendation Provide a designated space that is recognized as the health or nurse's suite.

¹⁷ Centers for Disease Control and Prevention. (2021). Components of the Whole School, Whole Community, Whole Child (WSCC): Health Services. Retrieved from www.cdc.gov/healthyschools/wscc/components.htm

Recommendation Ensure qualified staff, inclusive of a Registered Nurse, provide care and management of health services rendered for the school environment.
Recommendation Share, and make publicly available, nurse hours and availability, emergency care protocol, and undesignated epinephrine use plans.
Recommendation
Establish care coordination plans to increase access and referrals to primary care services and improve school-physician links following incidents.

EMPLOYEE WELLNESS
Employee health has a direct impact on how school staff perform in their roles in the school community. Employee wellness efforts at schools have the potential to increase feelings of work satisfaction and productivity, as well as lower rates of absenteeism and medical costs related to staff stress. recognizes the connection between healthy school employees and improved job performance and satisfaction. understands that while there is no legislative requirement for employee wellness,
implementing policies that promote employee wellness and improve job satisfaction may have a positive impact on student development. While there are no Employee Wellness LWP requirements, establishes the following employee wellness goals:
Federal LWP Requirement (7 CFR 210.31(c)(5)) Describe the manner in which representatives of the LEA, teachers of physical education, school health professionals, the school board (if applicable), and school administrators are provided the opportunity to participate in the development, implementation, and periodic review and update of the Local Wellness Policy.
Recommendation
Address and improve educator wellness through initiatives, for example offering yoga classes, immunizations, screenings and wellness campaigns, and mindfulness trainings.
Recommendation Provide professional development trainings to address and improve staff development and preparedness, for example by facilitating implicit bias training and assessments, and cross-cultural communication training.
Recommendation
Take action to address and improve staff mental health, for example by informing and actively promoting Employee Assistance Programs and other community behavioral health resources available to staff throughout the school year.

¹⁸ Centers for Disease Control and Prevention. (2016). Preventing Chronic Disease. Absenteeism and Employer Costs Associated with Chronic Diseases and Health Risk Factors in the US Workforce. Retrieved from www.cdc.gov/pcd/issues/2016/15_0503.htm

FAMILY ENGAGEMENT
Engaging family members in school programs and services is a priority that may have a lasting impact on students as they grow understands that welcoming participation from families when developing and implementing LWP goals supports the creation of an effective, comprehensive and robust local wellness policy that will meet the needs of the school community and the students it serves. By allowing families to participate in the development, implementation and evaluation of this wellness policy, acknowledges the connection between family involvement, in connection with teachers, and other school staff, and ensuring students receive a well-rounded, comprehensive education that can serve them within and outside of the classroom setting is committed to engaging family members in our LWP development, wellness committee participation, policy implementation and other health and wellness requirements and initiatives.
Federal LWP Requirement (7 CFR 210.31(c)(5)) Describe the manner in which parents and legal guardians are provided the opportunity to participate in the development, implementation, and periodic review and update of the Local Wellness Policy.
Recommendation Educate families on behaviors for contagious disease prevention and response and include guidelines for when to keep sick children at home and when they can return to school.
Recommendation Have communication protocols in place to notify families of positive contagious disease cases that protect the privacy of affected individuals and their families consistent with DC Health guidelines.

Recommendation
Inform parents of all hygiene and cleaning practices introduced, including reinforcing proper hand hygiene, mask wearing, and other health practices while students are at home.
COMMUNITY INVOLVEMENT
Engaging community stakeholders in the LWP process may provide strong support for the school community both during
operating hours and when the school itself is closed. Advisory neighborhood commission members, local business
owners, area law enforcement and public works professionals are just a few community stakeholders that may provide
valuable support and insight to creating the safe, healthy learning environment our students need to thrive in an aca-
demic setting recognizes and values the role the community plays in the safe and
healthy development of our students is committed to accepting and implementing feedback and support from the community and works to engage members of the community-at-large in our students'
development.
development.
Federal LWP Requirement (7 CFR 210.31(c)(5))
Describe the manner in which community members are provided the opportunity to participate in the development,
implementation, and periodic review and update of the Local Wellness Policy.

Office of the State Superintendent of Education 1050 First St NE, Washington, DC 20002
