

Daily Schedules

Middle School and Upper School Schedules

Advisory - Our advisory system is central to a student’s experience at Washington Latin. This is the home base for each student and, by extension, an important connection for our families. Students are assigned a new advisor each year, and the mix of students in their advisory also changes annually.

Our advisors foster a sense of mutual caring, community, and fun for their advisories. This is where our students begin each morning. Each child’s advisor acts as the “go-to” person for questions that either the parent or child may have.

A, B or Alpha, Beta - These are the names of our periods, and your children's classes (Math, English, Latin, and so forth) will always be in the same period. A student may have Math during Alpha, for example, so Alpha will be for Math all year.

We shuffle the order of our class periods to keep it fresh and so that students do not come to associate a subject with a particular time of day. For example, if History was always the first period, a student who is not a morning person may come to associate the subject with exhaustion and low energy.

Tutorial - At the end of each school day, our teachers build time into their schedule to work with students who are currently underperforming in their classes, students who may have missed class, or students who are just looking to get ahead. Tutorial fortifies relationships between adults and students while creating an alternative learning environment for students who may be seeking it.
