6th Grade: At this stage in their academic career, many students are still developing an organizational system. While we know that not all students will benefit from the same strategy, there are some tried and true methods that we prefer students adopt. In that vein, the sixth grade teachers continue with the color-coding of the fifth grade, while introducing and teaching students how to successfully use binders and notebooks for organization. 7th Grade: The seventh grade teachers continue with the color-coding of the fifth and sixth grades, while teaching students how to clean out their binders after each unit and how to safely file important materials and save them for final exams. Please note that our single-subject binder requirements are intentional. Please do not allow your child to have only one large binders with multiple subjects. Each class will require multiple sections of a binder and using only one or two large binders leads to disorganization and “exploding” binders and bookbags!

8th Grade: Our objective in eighth grade is to prepare students for the rigors of high school. We continue with the color-coding of the rest of the middle school, while giving students some freedom with their choices and gradually lifting some of the organizational requirements as students experiment with their own systems. Still, we ask that you do not allow your child to have only one or two large binders with multiple subjects. Each class will require multiple sections of a binder and using only one or two large binders leads to disorganization and “exploding” binders and book bags!
