

2025 Summer Math Packet Communication

Hello students!

This summer, math resources are available to help support and further your learning as they prepare for next year. We want to ensure that you don't suffer from "summer slide," where you can lose much of your math knowledge and then are behind for next year. The summer math resources are designed to help you review and reinforce concepts they already know and prepare them for next year's math class. Please find instructions below for summer math resources for Upper School courses.

The work will be due on the first day of school.

Non-AP Math Courses - Work is strongly encouraged!

Summer work is recommended (strongly encouraged) but not required. Reach out to Mr. Love (klove@latinpcs.org) with any questions. Below is a list of recommended work based upon the course you are taking next school year.

Geometry/Honors Geometry

- Complete the summer packet linked [here](#).

Algebra 2/Honors Algebra 2

- Join <https://www.khanacademy.org/join/TZYH9QG4> for **Algebra 2 Readiness Summer Work**.
- Additional resource: [Algebra 2 Summer Packet](#)

PreCalculus/Honors PreCalculus

- Join <https://www.khanacademy.org/join/RA9ZDHB1> for **Pre-Calculus Readiness Summer Work**.
- Additional resource: [PreCalculus Summer Packet](#)

Statistics

- Join <https://www.khanacademy.org/join/XKC2GSUS> for **Statistics Readiness Summer Work**.

AP Math Courses - Work is required!

AP Statistics

- Summer work is required. Reach out to Ms. Raskin (eraskin@latinpcs.org) with any questions.

AP Calculus AB

- Summer work is required. Reach out to Mr. Love (klove@latinpcs.org) or Ms. Raskin (eraskin@latinpcs.org) with any questions.
